As part of the curriculum at UBC Okanagan, several programs include work on problems presented by industry or community organizations and companies in order to gain experience and practical application of the knowledge the students have learned. Often referred to as a ‘Capstone’, these projects attempt to solve a practical problem posed by Industry partners. Depending on the discipline, this may involve development of technical evaluations, prototypes, business development, marketing scenarios, etc., all documented with a summary report (the “Capstone Project”).
